Students feedback Analysis

Academic Year: 2022-23

No. of Feedbacks received: 30

Following are the responses from students:

- Most of the students suggested that courses like Design software are useful
- Software like CREO, AutoCAD , ANSYS, Programing in Python and Matlab are very useful
- Advanced courses like Artificial intelligence, ML, Automobile electronics, multi gearbox should be included in autonomy.

Action Taken:

- Most of the courses like AUTOCAD in first year and Python is been included autonomous syllabus. ANSYS, Artificial Intelligence and Machine learning, Mechatronics are included in TE autonomy syllabus.
