Hirabai Haridas Vidyarnagari, Amrutdham, Panchavati, Nashik-422003

### Teachers feedback Analysis

**Academic Year: 2022-23**

**No. of Feedbacks received: 20**

1.	New topics that should be added to existing course	Heat transfer enhancement techniques should be included in heat transfer course, Optimization using AIML, LSTM, RNN, 3D Printing modelling, Computational analysis of turbine, Heat pipe, More psychological aspects, Mountings of mechanical parts
2.	New courses in autonomy	AIML using Python, Solar and wind energy, Automation in KOM, Programming in Python

### Action Taken:

All the above topics suggested by faculty members will be included in the syllabus framed under autonomy.

  
Head,

Mechanical Engineering Department
