Student Feedback on curriculum enrichment – Analysis Report

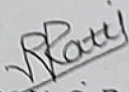

No. of Feedbacks collected: 40

Q. No	Questions	Suggestion
1	Which courses of the curriculum will be extremely useful and relevant for your professional growth	Students think subjects from the curriculum like Big data analytics, Data science, PHP, Python, Cloud computing, Tabclass, Machine Learning, Block chain will be helpful for professional growth.
2	Which technology / course / case study do you think should be introduced so as to enrich the present curriculum	As per the student's feedback, technologies like React.js, Next.js, Node.js, Mongo DB/NQL, Full Stack, Android studio, Ruby, Deep Learning.
3	Which courses / components of syllabus in your opinion are irrelevant and unnecessary for your stream and why	In view of most of the students, every component of the syllabus is necessary.
4	Any other suggestion for the enrichment of the curriculum	Practical courses should be added for new technologies like cloud computing, business communication. Internship should be compulsory and better if suggested for more duration.

Action plan based on feedback from students:

With reference to the above feedback, department has planned following activities in coming academic year 2022_23

- 1) Planned to conduct expert talk based on current technologies
- 2) Planned to conduct short term course based on recent technologies
