

Expert Talk on “Automation Tool- Selenium: Scope and Opportunities”

An expert talk on “Automation Tool- Selenium: Scope and Opportunities” is conducted by Mr. Sangam Bajpai from Flexsin Technologies, Noida on 12th Dec 2020. He discussed the various selenium testing tools available in the market and skills required to become a selenium tester.

Faculty Development Program on Artificial Intelligence

The Department of MCA in association with Savitribai Phule Pune University, Pune has organized a FDP on Artificial Intelligence on 23rd January 2021 from 10am to 5pm. Dr. Neeta Deshpande, Associate Professor, Gokhale Education Society's R. H. Sapat College of Engineering, Management Studies and Research, Mr. R.S.Tiwari, Technical Director, Cognifront, Nashik., Dr. Vahida Attar, Head ,Computer & IT Department, College of Engineering, Pune guided the faculties about Artificial Intelligence. Total 19 faculties were registered for the FDP. Dr. V. C. Bagal was the convener for this program. This activity was coordinated by Ms. Poonam Fegade. The motive of this FDP was to discuss the

Philosophy of AI, goals of AI, AI techniques, Research areas related to AI etc.

Induction Program

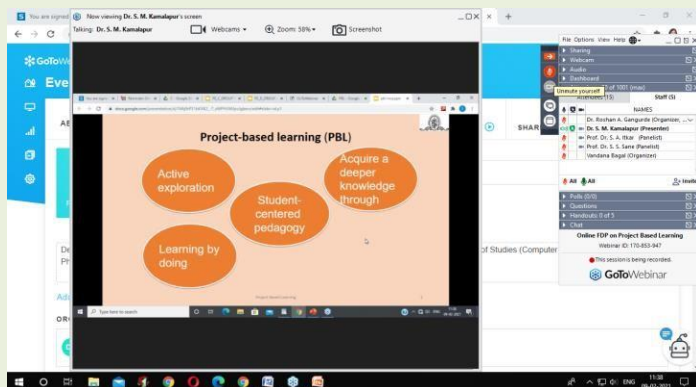

Department of MCA, of K. K. Wagh Institute of Engineering Education and Research has organized an Induction Program for newly admitted students of First year MCA every year. This was the 14th batch of MCA-Under Faculty of Engineering.

The programme was organized in an online mode. The department has invited alumina Mr. Hemant Nikam as a chief guest. Total 54 participants were participated in this online programme.

Faculty Development Program on Project Based Learning

The Department of MCA in association with Savitribai Phule Pune University, Pune has organized a FDP on Project Based Learning on 9th February 2021. Dr. Snehal M. Kamalapur, Professor, K. K. Wagh Institute of Engineering Education and Research, Nashik guided the faculties about project based learning. Total 22 faculties were registered for the FDP.

IT professional life after COVID

A webinar on IT professional life after COVID is conducted by Ms. Gowari Jakkal, New York on 4th July 2020 at 4.30 pm to 5.30 pm for IT Professionals. Total 120 candidates were registered for the webinar and total 97 candidates participated in it.

Webinar on "A Geek's Perspective of Life"

A webinar on A Geek's Perspective of Life is conducted by Mr. Neeraj Karandikar on 11th July 2020 at 10.30 am to 11.30 am. Total 273 candidates were registered for the webinar and total 121 candidates participated in it.

Publication Details:

Title: Voice Control Elevator for Prevention of Physical Touch

Author: Prof. A. L. Rane

Published in: International Journal of Computational and Electronics Aspects in Engineering Volume 1, Issue 4, Dec 2020, pp 95 - 100 DOI: 10.26706/ijceae.1.4.20200702

Abstract: Nowadays, usage of the elevator is very common everywhere in our day to day life. The main aim of elevator is to transport the things like person or goods in fraction of seconds. As it has number of advantages so we prefer to use elevator. But as you know, corona virus is spreading all over the world; it is important and mandatory to take precaution by individual and we are sure our propose system help you out in this. The existing elevators can be used by pressing floor number as per needs. These elevators cannot be used by paralyzed, blind and physically challenged persons. In this we used Adriano Uno ATmega328P microcontroller, Bluetooth module HC-05 and Motor driver unit with Android application. The speech recognition system provides the communication mechanism between the user and the Arduino based elevator control mechanism. We used of a DC motor for moving the elevator based on the voice/speech commands given by the user from mobile application. Its process the data and the result are generated in form of according to the user choices; that is elevator is moves upside or downside.
